## **PUBLIC WORKS DEPARTMENT**

The Public Works Department consists of four separate divisions in the budget, with one (1) Public Works Director (full time), one (1) Building Inspector/Water Plant Operator (full time), one (1) Water Plant Operator (part time), four (4) Public Works Maintenance Technicians (full time), and one (1) Public Works Technician (part time) employees. In addition, five (5) Park Technicians (seasonal employees) are hired during the summer. The Street and Park Departments are funded by the general fund; the Water & Sewer Departments each have their own fund. Code Enforcement is also a division of Public Works and is funded from the General Fund.

## **STREETS:**

The Village has over 23 miles of pavement. Repairing of potholes, crack fill, and paint striping are done by Village crews. Right-of-Way maintenance is a responsibility of the department and includes Route 51 within the village limits. We also maintain traffic signals and lighted street name signs. The street lights are cost shared 50/50 with I. P. Ameren. Winter maintenance snow and ice control is included, as are other seasonal activities such as mowing and litter control.

## **PARKS:**

The Village has one large 75 acre main park and six small neighborhood parks. The main park has 5 ball diamonds, 2 batting cages, 2 concessions, 3 pavilions, 4 restrooms, 3 tennis courts with lights, play equipment, a wildlife observation stand, soccer fields, disc golf & 2 fishing ponds. Within the Village there are over 5 miles of paved walking and bike trails. All of the neighborhood parks have playground equipment and pavilions.

## **WATER:**

The Village's first water plant was built in 1966 and was expanded several times at the original location of 145 Shafer. In November of 2006 the present plant at 580 East Cox was completed. The water treatment process involves softening and iron removal. The capacity is 2 million gallons per day and the present average treated is 350,000 gallons per day. Our water comes from 4 different wells located in two different aquifers, the Glassford & the Mahomet. Water usage meters are read and billed every other month. Staff is on duty 24/7 for emergency calls.

## **SEWER:**

The Sanitary Sewer System was first built in 1984 and continues to grow with four (4) lift stations that pump water from areas that could not be served by the original gravity system. Each station has 2 pumps and alarm systems that notify our staff of malfunctions. Each pump station is served by a generator in the event that power is interrupted.

## **INSPECTION:**

Code enforcement and Building inspection is included in our daily work duties. The Village utilizes Contractual Service to provide plumbing & commercial electrical inspections by inspector who are on call for those duties needed.

## **MOTOR FUEL TAX FUND**

The State imposes the Motor Fuel Tax (MFT) and the revenue tax is distributed according to the Village's population. The MFT revenues are received monthly and the funds are held in a separate account by the Village.

The Department of Transportation completes an Audit and/or compliance check of the Village's MFT Fund. An Audit would be completed if expenses occurred. While a compliance check are done randomly. Even if a compliance check is done the Village would be Audited for that year whenever the Department of Transportation notifies the Village.

The MFT expenses are restricted to street related maintenance, improvements and projects. The Village or Village's Engineer must fill out paperwork and submit the forms to the Department of Transportation. The Department of Transportation will give approval of the expense to use the MFT funds.
