## INDEPENDENT AUDITOR'S REPORT

To the Mayor  
and Board of Trustees  
Village of Forsyth, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Village of Forsyth, Illinois, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Village of Forsyth, Illinois, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, the Schedule of Changes in the Net Pension Liability and Related Ratios, the Schedule of Employer Contributions, and the budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to Management's Discussion and Analysis, the Schedule of Changes in the Net Pension Liability and Related Ratios, and the Schedule of Employer Contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on Management's Discussion and Analysis, the Schedule of Changes in the Net Pension Liability and Related Ratios, and the Schedule of Employer Contributions, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information on pages 44-51 has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Forsyth, Illinois's basic financial statements. The Schedule

of Assessed Valuation and Taxes Extended and Collected, Schedule of Legal Debt Margin, Schedule of Debt Service Requirements – IEPA Loans Payable, and Schedule of Capital Assets are presented for purposes of additional analysis and are not a required part of the basic financial statements. This additional information has not been subjected to the auditing procedures applied in our audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

A handwritten signature in black ink that reads "KEMPER CPA GROUP LLP". The letters are cursive and somewhat stylized, with the "K" being particularly large and the "LLP" at the end being smaller and more compact.

## **VILLAGE OF FORSYTH, ILLINOIS MANAGEMENT’S DISCUSSION AND ANALYSIS**

As management of the Village of Forsyth, Illinois, we offer readers of the Village’s financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended December 31, 2017. We encourage readers to consider the information presented here in conjunction with the basic financial statements and accompanying notes to those financial statements.

Included in the discussion and analysis is a two-year comparison analysis of government-wide data, as required by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements—and Management’s Discussion and Analysis—for State and Local Government*.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is an introduction to the Village’s basic financial statements, which comprise three parts: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. In addition, the discussion and analysis also contains information on other required supplementary information included in this report.

#### **Government-wide Financial Statements**

The statement of net assets and the statement of activities are two financial statements that report information about the Village as a whole and about its activities. These statements are designed to provide readers with a broad overview of Village’s finances, in a manner similar to a private sector business.

The statement of net assets presents all of the Village’s assets and liabilities, with the difference between the two reported as “net assets.” Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Village in total is improving or deteriorating.

Historically, a government’s largest group of assets (infrastructure—roads, bridges, storm-sewers, etc.) have not been reported or depreciated in governmental financial statements. GASB Statement No. 34 requires that these assets be valued and reported within the governmental column of the government-wide statements. Additionally, the government must elect to either depreciate these assets over their estimated useful lives or develop a system of asset management designed to maintain the service delivery potential to near perpetuity. The Village has chosen to depreciate assets over their useful lives. If a road project is considered maintenance—a recurring cost that does not extend the road’s original useful life or expand its capacity—the cost of the project will be expensed. An “overlay” of a road will be considered maintenance, whereas a “rebuild” of a road will be capitalized.

The statement of activities presents information showing how the government’s net assets changed during the most recent fiscal year. Revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods. The statement is focused on

## **VILLAGE OF FORSYTH, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS**

both the gross and net cost of various activities, which are supported by the government's general taxes and other resources. This is intended to simplify the user's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

The governmental activities reflect the Village's basic services, including General Government, Public Safety, Highways and Streets, Culture and Recreation, and Economic Development. The Village's sales and non-home rule taxes finance most of these services. The business-type activities reflect private sector-type operations (Water and Sewer), where the fee for service typically covers all or most of the cost of operation, including depreciation.

Included within the basic financial statements are schedules that reconcile the amounts reported on the governmental fund financial statements with governmental activities on the appropriate government-wide statements. The government-wide financial statements can be found on pages 14-16 of this report.

### **Fund Financial Statements**

The fund financial statements provide more detail than the government-wide financial statements, concentrating on information about the major individual funds. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Forsyth, like other units of state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two categories, governmental funds and proprietary funds.

**Governmental funds:** Most of the Village's basic services are reported in the governmental funds, which focus on how monies flow into and out of those funds and the balances left at year-end available for future spending. The governmental fund financial statements provide a detailed short-term view of the Village's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the Village's programs. Governmental funds are reported using modified accrual accounting. Governmental funds include the General Fund, the Capital Projects Fund, the Motor Fuel Tax Fund, and the Hotel Motel Tax Fund.

Village of Forsyth government adopts annual appropriated budgets for the General Fund and certain special revenue funds. Budgetary comparison statements have been provided for the governmental funds to demonstrate compliance with the budget. The governmental fund financial statements can be found on pages 17-20 of this report.

**Proprietary Funds:** Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Water and Sewer Funds are used to report activities related to the operation of the water and sewer utilities provided to Village residents. The proprietary fund financial statements can be found on pages 21-23 of this report.

**VILLAGE OF FORSYTH, ILLINOIS  
MANAGEMENT’S DISCUSSION AND ANALYSIS**

**Notes to the Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the Village’s financial statements. The notes to financial statements can be found on pages 24-43 of this report.

**Other Information:** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village’s progress in funding its obligation to provide benefits to employees. In addition, budget vs. actual information for the governmental funds is presented. Required Supplementary Information can be found on pages 44-53.

**Financial Analysis:** The following financial information was derived from the government-wide Statement of Net Assets and reflects the Village’s financial position as of December 31, 2016, and December 31, 2017. In fiscal year 2017, the Village changed its basis of accounting from the modified cash basis of accounting, which was used in fiscal year 2016, to accounting principles generally accepted in the United States of America. The 2016 financial information is shown as it was originally reported, with the cumulative effect of the change in basis of accounting shown as an adjustment to the opening fund balances in fiscal year 2017.

| Other                                  | \$ 4,445                | \$ 8,371             | \$ -                     | \$ -                | \$ 4,445                 | \$ 8,371             |
| Unrestricted                           | \$ 8,879,351            | \$ 11,287,168        | \$ 1,490,052             | \$ 951,053          | \$ 10,369,403            | \$ 12,238,221        |
| <b>Total Net Assets</b>                | <b>\$ 24,434,126</b>    | <b>\$ 27,192,885</b> | <b>\$ 6,944,740</b>      | <b>\$ 6,166,371</b> | <b>\$ 31,378,866</b>     | <b>\$ 33,359,256</b> |

The Village’s combined net assets were \$31,378,866 at December 31, 2016, and \$33,359,256 at December 31, 2017 (which is the Village’s bottom line). The Village’s largest asset is its capital assets (land, buildings, and equipment). The largest liability is its long-term debt. The largest component of the Village’s net assets reflects the Village’s investment in capital assets, less any related debt that was recorded to acquire or construct the asset.

The following condensed financial information was derived from the government-wide Statement of Activities and reflects the Village’s increase in net assets during the current and prior fiscal years:

**Governmental Activities:** For the fiscal year ending December 31, 2016, revenues for governmental activities totaled \$6,234,291. For the fiscal year ending December 31, 2017, revenues for governmental activities totaled \$5,611,122. Municipal sales and non-home rule tax continue to be the Village's largest revenue source, coming in at \$3,846,990. The Illinois Department of Revenue began deducting a 2% Administrative fee for Revenues implemented by the Village. The Non-Home Rule tax and Telecommunication tax are the two revenues sources impacted by the 2% Administrative fee. The Administrative fees began with revenues received in August 2017 and are deducted from each revenue before it is distributed to the Village. The Non-Home Rule tax 2% Administrative fee were \$16,481.29 and the Telecommunication tax were \$34.54 between August and December 2017.

For the fiscal year ending December 31, 2016, expenses for governmental activities totaled \$3,996,434. For the Fiscal year ending December 31, 2017, expenses for governmental activities totaled \$4,132,660.

The Village of Forsyth contracts with the Macon County Sheriff for law enforcement officers. In Fiscal year 2015 the Village negotiated and entered into a four (4) year agreement (6/1/2016 to 12/31/2019) with the Macon County Sheriff.

**Business-Type Activities:** For the fiscal year ending December 31, 2016, revenues for business type activities totaled \$926,874 and for the fiscal year ending December 31, 2017, revenues for business type activities totaled \$893,856. Revenue comes from fees charged for water and sewer usage by residents/business. Fees such as water and sewer tapping, water meters, inspections, etc. also make up this revenue source.

**VILLAGE OF FORSYTH, ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS**

For the fiscal year ending December 31, 2016, expenses for business type activities totaled \$1,294,421 and for the fiscal year ending December 31, 2017, expenses for business type activities totaled \$1,333,627.

Financial Analysis of the Village's Funds

The focus of the Village's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unassigned fund balance may serve as a useful measure of government's net resources available for spending at the end of the fiscal year.

**Governmental Funds**

At the end of the current fiscal year, the Village governmental funds (General Fund, Capital Projects Fund, Motor Fuel Tax Fund, and Hotel Motel Tax Fund) reported combined fund balances of \$12,705,711, an increase of \$2,552,072 over the prior year. Of these fund balances, \$7,557,851 constitutes unassigned fund balance, which is available for spending at the government's discretion.

**Proprietary Funds**

At the end of the current fiscal year, the Village proprietary funds (Water Fund and Sewer Fund) reported combined net position of \$6,166,371, a decrease of \$778,369 from the prior year. Of this net position, \$951,053 constitutes unrestricted net position, which is available for spending at the government's discretion.

Debt in the form of bonds and loans from the Illinois Environmental Protection Agency were issued primarily to provide funds for the acquisition and construction of capital facilities for water and sewer treatment facilities, and maintenance of roadways.

Economic Factors and Next Year’s Budgets and Rates

The Village Board approves an Annual Fiscal Year Operating Budget and a Five (5) Year Capital Improvement Plan. The Annual Fiscal Year Operating Budget contains detailed information on expenditures/revenues and a Five (5) Year Capital Improvement Plan has been designed to project major capital items based upon priority needs and a guideline for developing next fiscal year’s budget.

The 2017 Annual Fiscal Year Operating Budget and a Five (5) Year Capital Improvement Plan was approved on December 05, 2016. In fiscal year ending December 31, 2017, the following projects were completed: The Library Roof and Electrical Outlets (carried over from 2016), Control Panel for Greenbrier Lift station, replacement of an emergency siren by Hickory Point Mall (siren was old and parts were no longer available to repair), a product called GSB-88 was placed on W. Forsyth Parkway and S. Elwood St. to expand the street longevity and press boxes for D # 4 & # 5 were completed. The following capital projects will be carried over into 2018 budget year as construction in progress (CIP): Water Meter Upgrades, Phillip Circle and Cale Court street improvements. Revenues remained flat based upon the current economy.

The 2018 Annual Fiscal Year Operating Budget and a Five (5) Year Capital Improvement Plan was approved on December 4, 2017. In 2018 some potential capital projects include: In the street dept. salt dome roof repairs, Phillip Circle/Cale Court drainage and street design, Magnolia-Ponderosa-Cypress drainage and road improvements. Within the Park Dept. Pocket Park located by the Library recoat/stripe basketball court, upgrade playground, Main Park upgrades to the amphitheater, repair/seal coast parking lots A & B and mower replacement. Within Hotel/Motel dept. batting cage, D# 5 bullpen, D #1 & # 2 fencing. Within the Water dept. to complete the CIP water meter upgrade and rebuild 4 filters at the water treatment plan. The revenues have been projected to remain flat based upon the current economy.

VILLAGE OF FORSYTH, ILLINOIS  
 Reconciliation of the Balance Sheet to the Statement of Net Position  
 Governmental Funds  
 December 31, 2017

|  |               |
|--|---------------|
| Total fund balances - governmental funds   | \$ 12,705,711 |
| Amounts reported for governmental activities in the statement of net position are different because:   |               |
| Some liabilities are not due and payable in the current period and therefore are not reported in the governmental funds.   |               |
| Net pension liability  | (391,363)     |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.  |               |
|  | 14,310,238    |
| Deferred inflows of resources related to property taxes are reported in the governmental funds but recognized as revenue for governmental activities.                                |               |
|  | 437,369       |
| Pension-related deferred outflows and deferred inflows of resources are not due and payable in the current year and therefore are not reported in the governmental funds as follows: |               |
| Deferred outflows related to pensions  | 185,625       |
| Deferred inflows related to pensions   | (54,695)      |
|  | 130,930       |
| Net position of governmental activities  | \$ 27,192,885 |

VILLAGE OF FORSYTH, ILLINOIS  
 Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances  
 of Governmental Funds to the Statement of Activities  
 For the Year Ended December 31, 2017

|  |                  |
|--|------------------|
| Net change in fund balances - governmental funds   | \$ 1,781,762     |
| <br>Amounts reported for governmental activities in the statement of activities are different because:   |                  |
| <br>Pension expense is recorded as contributions are paid in the governmental funds but as the change in the net pension liability in the Statement of Activities.   |                  |
| Pension contributions paid   | (36,180)         |
| Pension expense  | 25,882           |
| <br>In the Statement of Activities, only the gain or loss on disposal of capital assets is reported, whereas in the governmental funds, the proceeds from sales of capital assets increase fund balance. Thus the change in net assets will differ from the change in fund balance by the cost of the assets disposed. |                  |
| Net capital asset sales, disposals, and trade-ins  | (10,111)         |
| <br>Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, the amounts are:   |                  |
| Capital asset purchases capitalized  | 808,894          |
| Depreciation   | (769,033)        |
|  | 808,894          |
|  | (769,033)        |
| <br>Change in net position of governmental activities  | <br>\$ 1,801,214 |

The accompanying notes are an integral part of this statement.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Forsyth, Illinois (Village) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

- (a) Subsequent Events – Management has evaluated subsequent events through May 25, 2018, the date when the financial statements were available to be issued.
- (b) Reporting Entity – The financial statements of the Village include all organizations, activities, functions, and component units for which the Village is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit’s board, and either (1) the Village’s ability to impose its will over the component unit or (2) the possibility that the component unit will provide a financial benefit or impose a financial burden on the Village. Regardless of whether the component unit has a board or how its board is appointed, the Village is financially accountable if the component unit is fiscally dependent on the Village and can possibly provide a financial benefit or impose a financial burden on the Village. Pursuant to these criteria, no component units were identified for inclusion in the accompanying financial statements.
- (c) Government-wide Financial Statements – The basic financial statements include both government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

The Statement of Net Position and Statement of Activities display information about the Village as a whole. These statements include the financial activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. The statements distinguish between those activities of the Village that are governmental in nature (which normally are supported by taxes and intergovernmental revenues) and those that are considered business-type activities (which rely to a significant extent on fees and charges for support). The Statement of Net Position presents the financial condition of the governmental and business-type activities of the Village at year end.

The Statement of Activities demonstrates the degree to which the direct expenses of a functional category (highways and streets, culture and recreation, etc.) or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or activity.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(c) Government-wide Financial Statements – Continued

Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity.

Taxes and other items not properly included among program revenues are reported instead as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the Village.

- (d) Fund Financial Statements – During the year, the Village segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements are designed to present financial information of the Village at a more detailed level. The Village maintains governmental and proprietary funds. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds, if any, are aggregated and presented in a single column. The Village has elected to present all funds as major funds.

*Governmental Funds*

Governmental funds are those through which most governmental functions of the Village are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Village's major governmental funds:

General Fund – The General Fund accounts for all financial resources, except those required to be accounted for in another fund.

Capital Projects Fund – The Capital Projects Fund is used to account for funds which have been set aside by the Village to be used for current and future capital projects.

Motor Fuel Tax Fund – The Motor Fuel Tax Fund is used to account for motor fuel taxes received that are legally restricted to expenditures for maintenance of roads.

Hotel Motel Tax Fund – The Hotel Motel Tax Fund is used to account for hotel/motel taxes received that are legally restricted to expenditures to promote tourism.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(d) Fund Financial Statements – Continued

*Proprietary Funds*

Proprietary funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and payments relating to the government's business activities are accounted for through proprietary funds. Operating revenues include charges for services. Operating expenses include costs of services as well as materials, contracts, personnel, and depreciation. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

The following are the Village's major proprietary funds:

Water Fund and Sanitary Sewer Fund – The Water Fund and the Sanitary Sewer Fund provide water services and sanitary sewer waste collection and transmission services to Village citizens and account for operations that are financed in a manner similar to private business enterprises.

- (e) Measurement Focus and Basis of Accounting – Measurement focus is a term used to describe *how* transactions are recorded within the various financial statements. Basis of accounting refers to *when* transactions are recorded, regardless of the measurement focus applied.

The government-wide Statement of Net Position and the Statement of Activities and the proprietary fund financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives of the economic resources measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent, financial or nonfinancial) associated with their activities are reported. Equity is classified as net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned, and expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which the taxes are levied. Grants are recognized as revenue when eligibility requirements are met, such as allowable costs having been incurred.

The governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. Generally only current financial assets and liabilities are included on the governmental funds' balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(e) Measurement Focus and Basis of Accounting – Continued

In the governmental funds, revenues are recognized when they become measurable and available. *Available* is defined as collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues received more than 60 days after the end of the current period are deferred in the governmental fund financial statements but are recognized as current revenues in the government-wide financial statements. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Governmental funds use fund balance as their measure of available spendable financial resources at the end of the period.

Proprietary fund operating revenues consist of charges for services and miscellaneous revenue resulting from the provision of services to users. Operating expenses are expenses incurred in providing the services, such as personal services, materials and supplies, and contractual services.

- (f) Cash and Cash Equivalents – For purposes of the Statement of Cash Flows for proprietary funds, the Village considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents, excluding amounts invested with the Illinois Treasurer’s Illinois Funds.
- (g) Investments – Investments include accounts with the Illinois Treasurer’s Illinois Funds. These accounts are stated at cost, which approximates fair value. Illinois Funds were established to supplement and enhance the investment opportunities available to custodians of public agency funds throughout the State. The management, custodianship, and operation of the Illinois Funds are under the supervision of the State of Illinois, Office of the Treasurer.
- (h) Capital Assets – The Village’s GAAP basis of accounting reports capital assets and depreciation when appropriate. The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-wide Statements

In the government-wide financial statements, capital assets are accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable. Estimated historical cost was used to value the majority of the assets acquired prior to May 1, 2004. Prior to May 1, 2004, governmental funds’ infrastructure assets were not capitalized. Infrastructure assets acquired since May 1, 2004, are recorded at cost. Donated fixed assets are valued at their fair market value on the date donated.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(h) Capital Assets – Continued

Government-wide Statements – Continued

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Net revenue bond interest cost incurred during construction periods is capitalized when material. During the year ended December 31, 2017, no interest was capitalized.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using straight-line method of depreciation. An asset is capitalized if its cost is \$5,000 or more and its useful life is one year or more. The range of estimated useful lives by type of asset is as follows:

|                                   |                |
|-----------------------------------|----------------|
| Buildings                         | 50 years       |
| Improvements other than buildings | 20 to 40 years |
| Equipment                         | 4 to 10 years  |
| Drainage improvements             | 35 to 50 years |
| Meters                            | 10 years       |
| Streets                           | 20 to 25 years |
| Storm/sanitary sewer              | 50 years       |
| System infrastructure             | 20 to 50 years |

Fund Financial Statements

In the fund financial statements, capital assets acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in the proprietary fund operations are accounted for the same as in the governmental-wide statements.

- (i) Prepaid Items – In governmental and business-type funds, prepaid expenditures/expenses are deferred and expensed over the term when the services are received.
- (j) Long-Term Debt – All long-term debt to be repaid from governmental and business-type resources is reported as a liability in the government-wide statements.

Long-term debt of governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources, and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same in the fund financial statements as in the government-wide statements.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

- (k) Interfund Activity – Interfund activity is reported as either loans, services provided, reimbursements, or transfers. On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as “Due to/Due from Other Funds.” Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers, which are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in enterprise funds. Interfund balances within governmental activities and within business-type activities are eliminated on the government-wide Statement of Net Position. The only interfund balances which remain on the government-wide Statement of Net Position are those between governmental and business-type activities. These amounts are reported as “Internal Balances.”
- (l) Compensated Absences – Full-time and part-time permanent employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the Village. Employees are entitled to all accrued vacation leave upon termination. Sick leave also accrues to full-time employees; however, unused sick leave is not payable upon termination of employment. Accrued vacation must be used on an annual basis and may not be carried over to subsequent years. These amounts are accrued when incurred in the fund financial statements. Governmental and proprietary funds have recorded \$11,435 and \$2,898, respectively, as compensated absences at December 31, 2017. Compensated absences are classified as current liabilities on the government-wide financial statements.
- (m) Deferred Inflows and Outflows of Resources – Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and employer pension contributions after the measurement date but before the end of the employer’s reporting period.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources reported in the governmental fund financial statements as unavailable revenue represent the amount of assets that have been recognized for which the related revenue has not been recognized since it was not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental funds consist of property tax receivables not collected within 60 days after the end of the year for which they were levied.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(m) Deferred Inflows and Outflows of Resources – Continued

Deferred inflows of resources in the Statement of Net Position consist of the unamortized portion of components of the net pension liability that will reduce pension expense in future years.

(n) Fund Balance/Net Position

Government-wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- b. Restricted net position – Consists of net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation. The government-wide statement of net position reports \$1,595,479 of net position that is restricted by state statute.
- c. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

It is the Village’s policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Fund Financial Statements

Fund balance is the difference between assets and liabilities in a governmental fund. The Village reports a governmental fund’s fund balance in the following classifications.

- a. Nonspendable – Amounts that cannot be spent because they either are not in spendable form or are legally or contractually required to be maintained intact.
- b. Restricted – Resources that are subject to constraints imposed by external parties or enabling legislation.
- c. Committed – Amounts constrained for specific purposes by the Village Board of Trustees through formal action (ordinance or resolution).
- d. Assigned – Amounts that are designated by the Village Board, Village Treasurer, or Village Administrator to be used for specific purposes, but are neither restricted nor committed.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

1. SIGNIFICANT ACCOUNTING POLICIES – Continued

(n) Fund Balance/Net Position – Continued

Fund Financial Statements – Continued

- e. Unassigned – The residual classification for the General Fund, the net resources that cannot be properly classified in one of the preceding four categories. Other governmental funds report deficit fund balance as unassigned.

The Village's minimum fund balance policy for the General Fund is to maintain a fund balance sufficient to fund the Village's current fiscal year's operating budget (excluding capital improvements) for a period of six months. The Village's minimum fund balance policy for the Motor Fuel Tax Fund is to maintain a fund balance in an amount no less than three months' worth of MFT revenues budgeted for the current fiscal year.

When an expenditure is incurred for which restricted, committed, assigned, or unassigned fund balances are available, the Village considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds, as needed.

- (o) Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village's Board of Trustees have adopted an investment policy that permits investments allowed by the Illinois Compiled Statutes (ILCS), which authorize the Village to make deposits in interest-bearing depository accounts in federally insured and/or state chartered banks and savings and loan associations, or other financial institutions as designated by ordinances, and to invest available funds in direct obligations of, or obligations guaranteed by, the United States Treasury or agencies of the United States, money market mutual funds whose portfolios consist of governmental securities, The Illinois Funds, and annuities.

- (a) Deposits – Separate bank accounts are maintained for all Village funds, which are all held at financial institutions. At December 31, 2017, the carrying amount of the Village's deposits, excluding petty cash, was \$6,529,044. The bank balances of these deposits totaled \$6,858,035. The entire bank balance was covered by federal depository insurance or collateral held in the Village's name.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

2. DEPOSITS AND INVESTMENTS – Continued

- (b) Investments – The Village invests in the Illinois Funds Money Market Fund, which consists of monies invested by individual participants that are pooled together and invested in U.S. Treasury bills and notes backed by the full faith and credit of the U.S. Treasury and other investments permitted by Illinois statute. The Village’s balance in the Illinois Funds at December 31, 2017, was \$6,503,035.
- (c) Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a bank failure, the Village’s deposits might not be recovered. The Village’s investment policy requires the financial institutions utilized by the Village to provide appropriate collateral for deposits in excess of FDIC insurance limits.
- (d) Credit Risk – Credit risk on investments is mitigated by limiting investments to those specified in state statute. The Illinois Funds investment pools were rated AAAM by Standard & Poor’s as of September 29, 2017. The pool is audited annually by an outside independent auditor and copies of the report are distributed to participants. Although not subject to direct regulatory oversight, the fund is administered by the Illinois State Treasurer in accordance with the provision of the Illinois Public Funds Investment Act, 30 ILCS 235.
- (e) Concentration of Credit Risk – The Village’s investment policy states investments shall be diversified to eliminate the risk of loss resulting in over concentration in a specific maturity, issuer, or class of securities. Diversification strategies shall be determined and revised periodically by the Village Treasurer.

Unless specifically authorized by the Illinois State Treasurer, the Illinois Funds Money Market Fund’s investment policy limits investment categories not to exceed 25% of the portfolio with the exception of cash equivalents and U.S. Treasury securities. Further, certificates of deposit cannot exceed 10% of any single financial institution’s total deposits.

- (f) Interest Rate Risk – Interest rate risk is the risk that the market value of portfolio securities will fall due to a decrease in general interest rates. Interest rate risk is mitigated by structuring the Village’s portfolio so that securities mature to meet the Village’s cash requirements for ongoing operations.

The investment policy of the Illinois Funds Money Market Fund states that, unless authorized specifically by the Treasurer, a minimum of 75% of its investments shall have less than one year maturity and no investment shall exceed two years maturity.

3. PROPERTY TAXES

The Village’s property tax is levied on or before the last Tuesday in December and attaches as an enforceable lien on the following January 1 of each year on property values assessed as of the same date.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

3. PROPERTY TAXES – Continued

Taxes levied in one year become due and payable in two installments during the following year. The first installment is due no later than June 1 and the second installment is due no later than September 1. Property taxes are collected by the Macon County Collector, who remits to each taxing unit its respective share of the collections.

4. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2017, consists of the following:

|                                      | Balances<br>December 31,<br>2016 | Additions | Retirements | Transfers | Balances<br>December 31,<br>2017 |

IEPA loan payable

During 2005, the Village entered into an agreement with the Illinois Environmental Protection Agency for a loan to fund the construction of a new water treatment plant. The original loan amount was \$4,964,604 (Water plan #L17-2247), due in semi-annual installments of \$161,616 through February 15, 2026. The loan carries a stated rate of interest of 2.5%. The principal balance of the loan was \$2,461,398 as of December 31, 2017.

7. ILLINOIS MUNICIPAL RETIREMENT FUND

The Village’s defined-benefit pension plan for Regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Village’s plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer agent public pension fund. A summary of IMRF’s pension benefits is provided in the “Benefits Provided” section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan’s fiduciary net position, and required supplementary information. The report is available for download at [www.imrf.org](http://www.imrf.org).

- (a) Benefits Provided – IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff’s Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

7. ILLINOIS MUNICIPAL RETIREMENT FUND – Continued

(a) Benefits Provided – Continued

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

(b) Employees Covered by Benefit Terms – As of December 31, 2016, the following employees were covered by the benefit terms:

|  | <b>IMRF<br/>Regular<br/>Plan</b> |
|--|----------------------------------|
| Retirees and beneficiaries currently receiving benefits          | 11                               |
| Inactive plan members entitled to but not yet receiving benefits | 17                               |
| Active plan members  | 16                               |
| <b>Total</b>   | <b>44</b>                        |

(c) Contributions – As set by statute, the Village’s Regular Plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village’s annual contribution rate for calendar year 2016 was 11.27%. For the calendar year ended December 31, 2016, the Village contributed \$71,288 to the plan. For the fiscal year ended December 31, 2017, the Village contributed \$80,295 to the plan. The Village also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

(d) Net Pension Liability – The Village’s net pension liability was measured as of December 31, 2016. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

(e) Actuarial Assumptions – The following are the methods and assumptions used to determine total pension liability at December 31, 2016:

NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

7. ILLINOIS MUNICIPAL RETIREMENT FUND – Continued

(e) Actuarial Assumptions – Continued

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.75%.
- **Salary Increases** were expected to be 3.75% to 14.50%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2014 valuation according to an experience study from years 2011 to 2013.
- The IMRF-specific rates for **Mortality** (for nondisabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For **Disabled Retirees**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for nondisabled lives.
- For **Active Members**, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **Long-Term Expected Rate of Return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| <b>Asset Class</b>      | <b>Portfolio<br/>Target<br/>Percentage</b> | <b>Long-Term<br/>Expected<br/>Real Rate<br/>of Return</b> |
|-------------------------|--|---|
| Domestic Equity         | 38%  | 6.85%   |
| International Equity    | 17%  | 6.75%   |
| Fixed Income            | 27%  | 3.00%   |
| Real Estate             | 8%   | 5.75%   |
| Alternative Investments | 9%   | 2.65–7.35%  |
| Cash Equivalents        | <u>1%</u>                                  | 2.25%   |
| Total                   | <u>100%</u>                                |   |

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS

7. ILLINOIS MUNICIPAL RETIREMENT FUND – Continued

(f) Single Discount Rate – A single discount rate of 7.50% was used to measure the total pension liability. The projection of cash flow used to determine this single discount rate assumed that the plan members’ contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50%, the municipal bond rate is 3.78%, and the resulting single discount rate is 7.50%.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

8. DEFERRED COMPENSATION PLAN

The Village offers all full-time and permanent part-time employees a deferred compensation plan established in accordance with the requirements of the Internal Revenue Code Section 457. Participants authorize the Village to withhold funds from their salaries which are invested, within a range of options, in individual accounts in the ICMA Retirement Corporation as directed by the individual. The deferred compensation is not available to the participants until termination, retirement, death, or unforeseeable emergency. The Village made no contributions to the Plan. The assets of the Plan are for the exclusive benefit of the participants and their beneficiaries.

9. OTHER POSTEMPLOYMENT BENEFITS

The Village evaluated its potential liability for other postemployment benefits. Former employees who choose to retain their health, dental, and vision insurance through the Village are required to pay 100% of the current premium. As of December 31, 2017, the Village had one former employee who chose to utilize this postemployment benefit for dental coverage only. As a result, the Village experienced minimal utilization and therefore has virtually no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Additionally, the Village had no former employees for whom the Village was providing an explicit subsidy, nor did the Village have any current employees with agreements for future explicit subsidies upon retirement. The Village therefore has recorded no postemployment benefit liability as of December 31, 2017.

10. SPECIAL ASSESSMENTS

The Village established four special assessments in prior years with those residing in specific subdivisions within the Village. The stated purpose of each of the assessments pertains to financing for the cost of constructing a sanitary sewer in each subdivision. Residents were given the option of paying all of the assessment in full or paying on a monthly basis over 20 years.

Beginning January 10, 2000, the Village established a special assessment with the residents of the Woodland Hills subdivision for \$4,100 per unit (total \$266,500), plus 3.125% interest, payable at the rate of \$23.00 per month. As of December 31, 2017, the balance of special assessments to be collected totaled \$18,361.

Beginning July 10, 2003, the Village established a special assessment with the residents of Montezuma Hills subdivision for \$4,100 per unit (total \$217,300), plus 3.175% interest, payable at a rate of \$23.10 per month. As of December 31, 2017, the balance of special assessments to be collected totaled \$22,419.

Beginning November 10, 2005, the Village established a special assessment with the residents of the Hickory Point Estates subdivision for \$4,100 per unit (total \$205,000), plus 3.000% interest, which could be paid at the rate of \$22.74 per month. As of December 31, 2017, the balance of special assessments to be collected totaled \$36,503.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

10. SPECIAL ASSESSMENTS – Continued

Beginning August 10, 2007, the Village established a special assessment with the residents of the Hickory Point Park subdivision for \$4,100 per unit (total \$53,300), plus 3.000% interest, which could be paid at the rate of \$22.74 per month. As of December 31, 2017, the balance of special assessments to be collected totaled \$5,605.

11. CONTRACTUAL COMMITMENTS

As of December 31, 2017, the Village had the following contractual commitments outstanding relating to future services or various construction projects:

| <u>Project or Service</u>       | <u>Period</u>        | <u>Contract<br/>Amount</u> | <u>Amount Paid<br/>as of<br/>Dec. 31, 2017</u> | <u>Amount<br/>Remaining<br/>on Contract</u> |
|---------------------------------|----------------------|----------------------------|--|---|
| Macon Co. Sheriff protection    | 6/1/15 to 12/31/19   | \$ 1,977,434               | \$ 1,078,600                                   | \$ 898,834                                  |
| Fireworks display               | 6/16/18 to 6/20/20   | 22,500                     | -  | 22,500                                      |
| Street maintenance              | 12/18/17 to 12/31/18 | 11,300                     | -  | 11,300                                      |

| TIF District                    | 4/17/17 to 12/31/21  | 105,489                    | 23,489   | 82,000                                      |
| Postage meter rental            | 2/22/17 to 2/22/20   | 1,440                      | 480  | 960   |

12. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Village joined together with other governments to form the Illinois Municipal Risk League, a public-entity risk pool currently operating as a common risk management and insurance program for Illinois municipalities. The Village pays an annual premium to the pool for its general insurance coverage. The agreement for formation of the Illinois Municipal Risk League provides that the pool will be self-sustaining through member premiums. There have been no significant changes from the prior year, and settlements have not exceeded coverage in the current year or the prior two years.

13. LITIGATION

As of December 31, 2017, the Village is the defendant in a personal injury lawsuit. Management intends to contest this case vigorously and believes that the outcome will not materially affect the Village's financial statements. Due to uncertainties in the settlement process, it is at least reasonably possible that management's view of the outcome will change in the near term.

14. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

For the year ended December 31, 2017, expenditures on a budgetary basis in the General Fund exceeded appropriations by \$178,084. Expenditures on a budgetary basis in the Hotel Motel Tax Fund exceeded appropriations by \$51,764. The excess expenditures were covered by current-year revenues in these funds.

VILLAGE OF FORSYTH, ILLINOIS  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2017

15. CHANGES IN ACCOUNTING PRINCIPLES

Effective January 1, 2017, the Village converted its basis of accounting from the modified cash basis to accounting principles generally accepted in the United States of America. In addition, the Village determined that the Economic Development Fund should not be reported as a special revenue fund. In the current year it is reported as part of the General Fund. The General Fund's fund balance was therefore restated to include the fund balance previously reported in the Economic Development Fund. The net effect of these changes resulted in the restatement of previously reported fund balances and net position as follows:

|                                       | <b>As previously<br/>reported</b> | <b>Net effect of<br/>accounting<br/>changes</b> | <b>Restated</b>      |

# VILLAGE OF FORSYTH

Forsyth, Illinois

## Notes to Budgetary Comparison Schedules

December 31, 2017

### Budget Law

The Village board prepares its annual operating budget and any amendments to the annual operating budget under the provisions of the Illinois Municipal Budget Law. In accordance with those provisions, the following process is used to adopt the annual budget:

- a. Prior to the end of the first quarter of each fiscal year, a board-designated person or persons submit to the board a proposed operating budget for the year commencing on January 1.
- b. Public hearings are conducted to obtain citizen comments. At least one public hearing must be held no later than 10 days prior to final approval of the budget.
- c. Subsequent to the public hearings, the budget is adopted by the board.

The legal level of control at which expenditures may not legally exceed appropriations is the fund.

### Basis of Accounting

The budget is prepared on the modified cash basis of accounting rather than the modified accrual basis of accounting used in the governmental fund financial statements. The "Budget to GAAP" column reconciles actual amounts on a budgetary basis to actual amounts under GAAP. Fund balance on a budgetary basis differs from fund balance under GAAP because of the cumulative effect of differences between these bases of accounting.

### Expenditures in Excess of Appropriations

Expenditures on a budgetary basis in the General Fund exceeded appropriations by \$178,084. Expenditures on a budgetary basis in the Hotel Motel Tax Fund exceeded appropriations by \$51,764.

**Notes to Schedule:**

**Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2016 Contribution Rate \***

**Valuation Date:** Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

**Methods and Assumptions Used to Determine 2016 Contribution Rates:**

|                                       |  |
|---------------------------------------|--|
| <i>Actuarial Cost Method:</i>         | Aggregate entry age normal   |
| <i>Amortization Method:</i>           | Level percentage of payroll, closed  |
| <i>Remaining Amortization Period:</i> | 27-year closed period  |
| <i>Asset Valuation Method:</i>        | 5-year smoothed market; 20% corridor   |
| <i>Wage Growth:</i>                   | 3.50%  |
| <i>Price Inflation:</i>               | 2.75%, approximate; no explicit price inflation assumption is used in this valuation.  |
| <i>Salary Increases:</i>              | 3.75% to 14.50%, including inflation   |
| <i>Investment Rate of Return:</i>     | 7.50%  |
| <i>Retirement Age:</i>                | Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2014 valuation pursuant to an experience study of the period 2011-2013.   |
| <i>Mortality:</i>                     | RP-2014 Blue Collar Health Annuitant Mortality Table, adjusted to match current IMRF experience. For disabled lives, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for nondisabled lives. For active members, an IMRF-specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience. |

***Other Information:***

*Notes:* There were no benefit changes during the year.

\* Based on Valuation Assumptions used in the December 31, 2014, actuarial valuation; note two-year lag between valuation and rate setting.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, information is presented for those years for which information is available.
